CREWE PATENT SOLID BRICK

TILE WORKS, OLD NANTWICH ROAD.

JOSEPH WALKER, Proprietor.

The superiority of the Patent Solid Brick over the ordinary Hand-made, consists in their perfect solidity and mathematical precision in size—Hydraulic pressure of 30 tons being brought to bear upon every Brick before leaving the moulds, and the "Mortar Services" planed, by the new process patented by Messrs. Oates and Bailie, of Birmingham.

BUILDERS & CONTRACTORS

Will find these Bricks superior in shape, solidity, durability, and finish. They are of superior color, and smoother on the surface (saving labour in setting, and waste in transit), giving a more uniform and neat appearance to work when finished.

A first-class Sample of Draining Pipes always on hand, at prices much below the ordinary rates

Tenders for any amount of Bricks or Tiles forwarded.

Estimates given for supplying and laying all sizes of Cast Iron Gas, Water Mains, and Distribution Pipes.

The Congleton & Macclesfield

MERCURY,

PUBLISHED EVERY FRIDAY EVENING.

EIGHT PAGES-PRICE ONE PENNY.

The most extensively circulated paper in the district.

The "Congleton and Macclesfield Mercury" was established in 1855, and has enjoyed an uninterrupted career of progressive prosperity. Based on liberal principles, and devoting itself energetically to the wants—local, agricultural, and commercial—of the neighbourhood, it has long been regarded as the leading paper in the district, and has attained a circulation unknown to its surrounding contemporaries. In the Editorial department no expense is spared to make the "Mercury" worthy of the support of its numerous patrons.

The Advertising connection of the "Mercury" is co-extensive with its sale; and it will be obvious to advertisers that a paper so widely read must offer great advantages for their announcements.

The Charges for advertisements are very moderate, and for a series of insertions for the quarter, half-year, or year, contracts may be made at a proportionate reduction on the scale price.

MILL HOUSE ACADEMY

Mr. M. BOWER, PRINCIPAL

The situation is healthy, and has every facility of communication by Packet and Railway with Liverpool, Manchester, Chester, Warrington, and the neighbouring Towns.

The course of Instruction embraces all those subjects which are calculated to prepare young Gentlemen for Commercial and Professional pursuits, and thus offers, at a moderate expense, the advantage of a sound and liberal Education, upon a Scriptural basis.

A spacious Play-ground is attached to the Premises, and during the play-hours the Pupils are under the vigilant care of the Master.

A General Examination of the School is held at the end of each Half-year, and Prizes awarded to the most successful.

The number of pupils is limited; and there is a resident Master for every twelve boys. There are also several visiting Masters. The interests and progress of each boy in each subject are attended to; and great care is taken that every boy is well grounded in the Elementary subjects—such as English Composition, Arithmetic, Writing and Reading. The School has been in connection with the Oxford Local Examinations since their institution, and has always passed a large per centage both in the Smile and Junior Divisions, and several boys in honours. The subjects in which the Candidates from the School have passed are Greek, Latin, German, French, Mathematics, English Literature, History, Geograph &c., &c. Pupils from this School have done remarkably well in the Civil Service Examinations are the greatest amount of care and attention is given to the average and the duller boys. The best English and German Maps—Historical and Geographical—and the best apparatus of every kind, are used in School.—Inquiries may be addressed to

MACCLESFIELD

Commercial and Mathematical Academy,

FIELD HOUSE, PARK LANE.

Conducted by Messrs. Maxwell & Hewlett, Principals.

N this Academy young gentlemen have every topportunity of obtaining a first-class Commercial and Classical Education. Lessons in the French and German languages are given daily by a resident Foreign Professor, who, by conversation and writing, teaches his pupils to express themselves with freedom and correctness, so that on leaving School they may be able to speak and correspond in those languages with facility.

In the Commercial department the system embraces a sound and practical knowledge of English—and, feeling the great importance of this branch of Education to a mercantile community, particular care is taken to secure the formation of a good, plain, and expeditious style of writing; in addition to which the Pupils are well grounded in Arithmetic, so as to render them quick and expert in accounts, whilst by dictation and writing business letters, &c., they are not only made acquainted with the usual routine of commercial correspondence, but at the same time are familiarised with correct Othography.

Corporal punishment is studiously avoided, and the internal arrangements of the Establishment are such as to combine the comforts of home with the regularities of a School—a liberal table being kept, and the utmost attention paid to the health and comfort of the Pupils.

IMPORTANT NOTICE.

ASPINALL'S INDIA PALE ALE

HENRY K. ASPINALL advises his customers who use his PALE INDIA ALE to put Five or Six Casks (of either 9 or 18 gallons) on the stillage to mature, thereby improving its Flavour and Brilliancy, and if kept for Four or Six Months, the quality will be much improved and very superior.

Always get in not later than April a stock sufficient to last during the Summer

Months.

This Season's Brewings are now ready, and Orders sent to the Offices, or to any of the undermentioned Agents, will be delivered free of expense, at the following Prices:—

	N	fo. 1 Pale Ale	9	No. 2 Pale Ale		No. 3 Pale Ale	N), 4 Palo A.

(For many years Dispenser to the largest Hospital in the United Kingdom)

129, PRICE STREET, BIRKENHEAD.

DENTAL DEPARTMENT.

The Proprietor, in calling attention to the Dental Department, begs to solicit the attention of his Friends and Patients to the following List of Proprietary Articles:—

SHILLINGLAW'S ODONTO.

The finest preparation extant for cleansing and preserving the Teeth: unlike most others, it is entirely free from grit, which destroys the enamel, and thereby produces decay. This preparation gives an agreeable odour to the breath.—Sold in Boxes at 1s., 2s., and 3s.

SHILLINGLAW'S TOOTH PASTE.

A similar preparation to the above, but prepared expressly for those who prefer a Paste to a Powder.—Sold in Pots at 1s., 2s., and 3s.

Shillinglaw's Astringent Tincture for the Teeth and Gums.

This preparation is made in strict accordance with medical rule. It is one of the best preparations for preserving the Gums in a healthy state, thereby preventing decay in the teeth; it exdicates Scurry, surengthens and braces the Gums, preventing them from receding from the Teeth; it has a most agreeable flavour, and by its occasional use prevents the Tooth-ache. It is entirely free from Camphor, which has been proved renders the Teeth very brittle and liable to crack, thus making a fissure into which food gaining admittance produces immediate decay, and consequently an offensive breath.—Sold in Bottles at 2s. and 3s. 6d.

METALLIC ENAMEL FOR STOPPING DECAYED TEETH. GUTTA PERCHA ENAMEL FOR DITTO.

CONDEY'S PATENT OZONISED WATER.

Removes impure and foreign tastes and odours from the mouth, strengthens the gums, is antiseptic, and is in a high degree adapted for purifying the mouth, for preserving the teeth, and for the immersion of artificial teeth.—Sold in Bottles at 2s. and 2s. 6d.

«GREEN LODGE» HOTEL,

PETER T. EVANS, PROPRIETOR.

This unrivalled and delightful residence for invalids and visitors is situate at the angle of the St. George's Chanel and river Dee, within one hour's drive by coach from Liverpool and Birkenhead. Is strongly recommended by the Faculty for the salubrity of the air, being at once mild, dry, and bracing. It cannot be too strongly recommended for convalescents. It also possesses most magnificent views of the surrounding country, including Wales. Immediately in front of, and close to, the Hotel on the "Green," is the pretty little and aristocratic race-course of the Liverpool Hunt Club, a mile and a quarter in extent, forming a delightful promenade, free from noise and dust, while close at the back is the splendid beach, extending from New Brighton to Parkgate, a distance of about twenty miles.

☞ A BOWLING GREEN ATTACHED.

This Hotel is close to the bathing grounds, is economically conducted (Board, 4s. 6d. per day for each adult), and has been established for upwards of 50 years. Coaches ply between the Hotel and Woodside Ferry, Birkenhead, for Liverpool daily.

CONDUCTED BY JAMES WOOD,

(LATE OF LANCASTER.)

The Locality of the School is healthy and pleasant. The Premises are well adapted for a Boarding School, having been built for that purpose. Ample provision is made to promote a healthy Physical development among the Pupils, who in addition to a field for Cricket and Football, have the advantage of a well furnished Laboratory, Workshop, Play Room, and an excellent Bath Room.

The Domestic Department is under the immediate control of the Principal's Wife, assisted by his Sister, and a thoroughly experienced nurse.

Care is taken to adapt the course of Education to each Pupil's capacity, and as far as practicable, to his future employment. In order to carry out this view, it is very desirable that Parents should state whether their sons are intended for either of the Universities.

It is JAMES WOOD'S great aim thoroughly to ground his Pupils in all the branches of a useful Education, which comprises, besides the usual English course, Mathematics, the Greek, Latin, French, and German Languages, and Drawing. Every effort is used to render the acquisition of knowledge interesting, and to train the Pupils to a sense of Duty and Obedience.

JONATHAN HEAP

Returns his sincere thanks to all his supporters for the liberal patronage bestowed on him during the last six years; he has great pleasure in announcing to them that he has enlarged his Spirit Stores and Cellars, and made extensive alterations necessary to meet the increasing patronage. His stock is now replete with every article in his line, selected with great care, and consists of Port, Sherry, Champagne, Hock, Moselle, Claret, and other Wines; French Brandy, Scotch and Irish Whiskey, Hollands, London and Bristol Gin, and Jamaica Rum, all of which, for superior strength, fineness of flavor, and purity of spirit, cannot be excelled, and will be found admirably suited for private families.

JONATHAN HEAP begs to call particular attention to the fact that he is the original and only bottler of Bass and Co.'s Ales and Guinness's Duelin Stout in Northwich, which is accomplished by Machinery with such expedition that he is enabled to supply the same at a very low rate. Single Bottles of Wine, Spirits, &c., at Wholesale Prices.

The Pupils are carefully prepared for the Universities, the Military, Naval and Civil Service, as well as Professional, Mercantile, or Agricultural pursuits.

The system of imparting instruction is that which modern science and experience has shown to be most in accordance with the constitution of the human mind, and, consequently, the best calculated to strengthen, develop, and rightly direct all its faculties.

J. H. has had great success with insubordinate youths, and adults of neglected education.

TUE BROOK VILLA,

GREEN LANE, NEAR LIVERPOOL,

ESTABLISHED IN 1839, FOR THE CARE AND CURE OF THOSE MENTALLY AFFLICTED.

This Establishment was expressly erected for the care and cure of those invalids of both sexes whose mental afflictions render absence from home desirable and necessary.

This house is in the Italian style of Architecture, light and airy throughout its various Corridors, Sitting and Bed Rooms; commanding extensive views from all the windows, and from the garden and pleasure grounds.

The internal arrangements are complete, everything being combined with the kindest care and attention for the restoration of the invalids.

Mr. and Mrs. Owen have had nearly thirty years' experience in the care and treatment of the nervous and those mentally afflicted.

The terms vary according to the circumstances and accommodation required. Experienced and confidential attendants sent to remove the invalids if required.

PARKGATE ACADEMY,

CONDUCTED BY

MR. WILLIAM BARRIE.

In this Academy the course of instruction is such as to thoroughly prepare a limited number of Young Gentlemen for the Universities, the examinations for the public service, or the pursuits of general business. The accommodation is ample, and the organization is such that it provides for the whole of the work being thoroughly and efficiently carried out.

W. B. receives into his family a limited number of boarders, who enjoy the combined advantages of a careful private training and a public school education in the academy.

Sedulous attention is paid to the health and home comforts of the Pupils, as well as to the superintendence of their studies, and to the care of their moral and religious training.

The climate is mild and salubrious, and the surrounding country picturesque.

There is daily communication to Parkgate from Liverpool and Chester.

STREET,

By Her Majesty's

Royal Xetters Patent.

THE BENEFITS DERIVED FROM WEARING

SELF-ADJUSTING AND

FIRST. Self-adjusting, soft, easy, and comfortable. fitting the peculiar configuration of all Heads:

The vielding of the inward part I of the Hat to the contour of the head, producing at once a delightfully perfect fit, the Hat accommodating itself to the head without the slightest pressure.

The Patent Fitting is some trifling distance from the body of the Hat, and allows a vacuum, which, being perforated, admits a current of air, and thus prevents headache and other serious consequences.

THIRD. Always

retaining its Shape. FOURTH.

Grease-proof; an important advantage connected with this Patent.

FIFTH. Fits the Head so closely, the strongest wind will not blow it off.

The Hats made under this Patent conform at once to the shape of the bead, and always retain it

The leather being a slight distance from the Hat, it is next to impossible for grease to reach the exterior (a great desideratum).

The yielding of the Patent material, upon pressure, ensures. when necessary, an extremely tight (but still easy) fit, preventing the possibility of the Hat blowing off the Head.

Ventilation.

SECOND.
