

WIDNES,

APPLETON, BOLD, DITTON, FARNWORTH, HALE BANK, HOUGH GREEN AND
NEIGHBOURHOOD.

WIDNES is a manufacturing town and township on the banks of the Mersey, and was formed into a parish May 17, 1859, from the civil parish of Prescott; it is 6 miles south-west from Warrington, 5 south from Prescott, 13 south-east from Liverpool and 184 from London, in the Widnes division of the county, civil parish and union of Prescott, hundred of West Derby, Prescott petty sessional division, county court district of St. Helens, rural deanery of Prescott, archdeaconry of Warrington and diocese of Liverpool: there are stations here on the London and North Western and Cheshire Lines railways, the last of which, opened in 1891, is on the loop line between Sankey and Hough Green; these afford a ready means of access to the Lancashire coal fields, the salt works of Cheshire and the port of Liverpool. The town adopted the "Local Government Act, 1858," August 1, 1865, but on May 26th, 1893, it was incorporated by Royal Charter, the borough being divided into six wards, the council consisting of a mayor, six aldermen and eighteen councillors. The Corporation own the gas and water works supplying the town: the water, of which there is an abundant supply, is pumped from deep wells at Ditton and Little Woolton. The church of St. Mary, erected in 1856, is a plain building of stone, consisting of chancel, nave, two western porches and an eastern turret containing one bell: there are 420 sittings, 200 being free. The register dates from the year 1856. The living is a vicarage, gross yearly value £330, including glebe, with residence, in the gift of trustees, and held since 1893 by the Rev. W. Hodgson M.A. of Merton College, Oxford. St. Ambrose's is an ecclesiastical parish formed November 7, 1884, from the parish of Farnworth; the church, erected in 1883, is of brick and terra cotta in the Early English style, and consists of chancel, nave and aisles: there are 520 sittings. The register dates from the year 1884. The living is a vicarage, net yearly value £200, with residence (recently erected), in the gift of trustees, and held since 1888 by the Rev. George Antonius Le Bert B.A. of Trinity College, Dublin, and surrogate. St. Paul's, Victoria road, in the parish of St. Mary, and opened in 1884, is a building of brick and terra cotta in the Early English style, consisting of chancel, nave, aisles and south porch, with sittings for 850, all free: the church will ultimately have a portion of the parish of St. Mary assigned to it: it is served by the clergy of St. Mary's. The Catholic church of St. Mary, in Lugsdale road, opened in 1865, is a brick building in the Gothic style, consisting of chancel, nave, aisles, north porch and a turret containing one bell, and will seat 650. St. Patrick's Catholic church, West Bank street, built in 1888, is of brick in the Gothic style, and consists of chancel, nave, aisles, north porch and a turret containing one bell: it will seat 600. The Congregational church, at Simms' cross, is a building in the Gothic style, and will seat about 500 persons: there are also Primitive Methodist and Welsh Congregational chapels, and a Wesleyan chapel, erected in 1863. The Drill hall of the H. company of the 2nd Volunteer Battalion, The Prince of Wales's Volunteers (South Lancashire Regiment), built in 1873, is of brick, with a central tower flanked by two smaller; it is 100 feet long by 50 feet wide, and attached to it are an armoury, an entertaining room and drill sergeant's quarters. The fire station and cottages for the firemen are in Lacey street. Widnes is the principal seat of the manufacture of alkalies and soap; copper smelting is also carried on here and there are iron works, foundries, limestone mills, oil and paint and locomotive and waggon grease works. The Fever Hospital, Crow Wood, erected in 1887 at a cost of £4,500, is available for 26 patients. "Tuellet's Girder," a wrought-iron bridge over the river Mersey, connecting Lancashire with Cheshire, was completed in 1868 and is 1,000 feet long and 95 feet in height above high-water mark, being supported over the river by two stone piers, each 80 feet in depth by 30 feet in width, placed 300 feet apart in mid-channel, thus forming three openings of 300 feet, exclusive of piers and abutments: there are two lines of railway and one footway for passengers. The representatives of the late John Hutchinson are lords of the manor, and W. Wright, the trustees of J. Hutchinson, J. Shaw Leigh and J. Bellhouse esqrs. are the chief landowners. The soil is clayey and the subsoil is of a sandy nature. The acreage is 3,339, of which 314 are water; rateable value, £152,592; the population in 1871 was 14,359, and in 1891, 30,011.
